

# BTSA - Brevet de technicien supérieur

LANDSCAPING Level 5

The BTSA (Brevet de Technicien Supérieur Agricole) is a post A-Levels training course for two years (from September to June) providing technological and vocational skills. At ECOLE DU BREUIL you can prepare a BTSA – specialized in «landscaping», by school or apprenticeship branch

*The training for the Agricultural Technician's Certificate (BTSA) in Landscaping provides scientific and technical knowledge. It provides methodological tools to design, build and maintain green spaces and to provide management functions.*

## GRADUATION

The diploma is obtained, for 50% of the grade, through continuous assessment and for 50 % in national 3 final exams:

- a general, socio-economic and cultural test
- a professional test,
- the presentation of the internship file/report.

## ADMISSION

### Prerequisites (school)

- high school diploma required
- The most suitable channels: technological education (STAV bac), general education, landscaping vocational diploma .

### Prerequisites (apprenticeship)
